Alice Covell : 2013 Coding Workbook for the Physician's Office before purchasing it in order to gauge whether or not it would be worth my time, and all praised 2013 Coding Workbook for the Physician's Office:

2 of 2 people found the following review helpful. so-soBy Lonnie MilhollandI really wanted a book to help me prepare for my CPC exam. I was looking for more of a self study guide, not a book that was intended to be used in a more classroom setting with an instructor. If you need this book because you are taking a class, then this is the book for you. However, if you want a self-study guide, then this is not your book...0 of 0 people found the following review helpful. Four StarsBy Duraid Al-DaffaieThank you0 of 0 people found the following review helpful. Five StarsBy BlumpPerfect shape. Thanks

Reflecting the latest practices from the field, 2013 CODING WORKBOOK FOR THE PHYSICIAN'S OFFICE enables readers to expand their medical vocabulary, improve their CPT and ICD-9-CM coding skills, and transition to

ICD-10-CM. Coding exercises reference each section of the CPT and ICD-9-CM coding manuals as well as HPCS Level II codes. Extremely thorough, the workbook corresponds to the latest code releases, includes updated certification style questions and provides comprehensive, critical-thinking coding scenarios. It also includes Center for Medicare and Medicaid Services (CMS) guidelines for diagnosis coding and reporting to physicians. Annual code updates, accuracy, flexibility and brevity are the signature features that continue to make this book a bestseller.

"This supplemental text is concise and focused on practice. Exactly what students need to learn to code. They are presented logically, which flows with both the CPT and ICD-9 books. The comparisons between ICD-9 and ICD-10 will satisfy the preparation needed to prepare students and current medical billers for the conversion. The content is complete and will greatly encourage success on the CPC." "Excellent as a supplemental text to give students a chance to practice coding skills and can be used to complete the required CAAHEP competencies." About the Author Alice Covell, CMA-A (AAMA), RMA, CPC, is a partner with Covell and Harwood Company, a Kalamazoo, Michigan-based consulting firm. She consults with physician practices and healthcare facilities on coding issues, billing compliance, and office management. Ms. Covell is also popular presenter on coding issues at seminars.
