However, I am sure this is a used copy-I didn't want a used copy. The cover is gouged and covered with sticker/price tag residue with a splatter of some liquid across it. Unfortunately, I didn't notice this sooner - the book was to be a gift.0 of 0 people found the following review helpful. with that said this book has some of my favorite storylines outside of the original Hewlett/Martin runBy Chris OreskiTank girl stuff is hard to get your hands on so you have to take what you can get, with that said this book has some of my favorite storylines

outside of the original Hewlett/Martin run. Its truly refreshing compared to the often unoriginal d.c. and marvel books. 1 of 1 people found the following review helpful. Happy Day for Tank Girl Fans! By Brandace F. Bret Parson and the other artists in this book are fantastic! True to Tank Girl fashion she's rude and crude and right up my alley. Loved it!
