Michael Alan Nelson : 28 Days Later Omnibus before purchasing it in order to gage whether or not it would be worth my time, and all praised 28 Days Later Omnibus:

6 of 6 people found the following review helpful. Breathes more life into an already great character. By Mike HolyoakI was a big fan of 28 Days Later, but thought 28 Weeks Later was just, okay. I had seen the individual volumes of this and hesitated, because I'm wary of movie tie-ins. Then I found and LOVED Hexed. I saw that it was the same author and gave the Omnibus a chance. I'm glad I did. I'm also glad I got the Omnibus, as this really is one BIG story, and the

individual books would really have left me hanging. The scripting and characters are great. I think Selena is even cooler in the comics than she was in the movie. I couldn't help but be reminded of Michonne from the Walking Dead, but she's different enough that this isn't just Michonne in England. That said though, if you love Michonne, you'll totally dig this book. Definitely one of my top 10 graphic novel finds for 2014. 0 of 0 people found the following review helpful. If you enjoyed the movie and want more Selena and the 28 ... By C. Mehta If you enjoyed the movie and want more Selena and the 28 Days universe, it is a fast and great read. The artwork was really good, although I felt like characters could look dramatically different in various frames. That was somewhat distracting. But, if you wanted more closure for at least one character, it accomplishes that task. I actually enjoyed this more than watching the film 28 Weeks Later. 1 of 1 people found the following review helpful. 28 Days Later Fan By booklady33 I know it's an older movie and the 28 Days Later (and Weeks) ship has sailed, but I still love the first movie and watch it at least once a year. I absolutely devoured this book. While I was sad about the absence of Jim and Hannah, I did enjoy all the new characters introduced (which I was skeptical about at first) and loved Selena even more, if possible. Plus I got this at a stellar price - on sale for 20\$.

There is no escape from the horrific world of 28 DAYS LATER, the comic that plunges readers back into fray of a world overrun with the infected! The film that changed horror forever continues here! Selena and her new comrades struggle against the infected, the American presence in the UK and themselves. Selena is a survivor but even she must give pause when the mission has her breaking into the land she fought so hard to get out of. They have no supplies. Most of their crew has been killed. They must get to London, but will they make it?

About the Author Michael Alan Nelson is the author of the critically acclaimed comic HEXED as well as FALL OF CTHULHU from BOOM! Studios. He is a winner of the 2004 New Times 55 Fiction contest for his short-short The Conspirators and is currently working on several projects for BOOM! Studios including the smash-hit series THE CALLING. He lives in Los Angeles. Irish comic artist Declan Shelvey won the Eagle Award for his work on HERO KILLERS from Moonface Press, and has illustrated FRANKENSTEIN for Classical Comics. 28 DAYS LATER with BOOM! Studios is his North American debut.
