Matt Kindt : 3 Story: The Secret History of the Giant Man before purchasing it in order to gage whether or not it would be worth my time, and all praised 3 Story: The Secret History of the Giant Man:

2 of 2 people found the following review helpful. Giant manBy What RestaurantI was always into giants and growth spurts. But when I saw this book on . I had to have it. I begged my mom for months for this book. When my mom finally said yes, I was so excited. I read the book in little under a hour. I loved every page and story. I loved the second story the most. I'll read it again and again for a very long time. Thank you.1 of 1 people found the following review helpful. Amazingly touching.By Winter FlakeSimply 10 out of 10 and 5 stars, not only for the subtle yet nicely done

art, but for the deep story and concept beneath it. It got me sad, happy and thoughtful for a while. I have read it 8 times already, and still kept the same feelings I had when reading it for the first time. Totally recommend it. 1 of 2 people found the following review helpful. 3 Story By Abraham Jeyakumar I'm not sure why I bought the book, but I'm glad I did. It is very surreal, but it does keep very closely in touch with humanity. It is a very unique story and I have read it several times. I still get new things from it here and there. The art work is very well done, but that's an opinion. It is ink and water color. At first glance, I really didn't like the art work, but the story style fits so well with the art that now, I wouldn't want it to change. I'm looking forward to getting to know more about Matt Kindt's work.

What would it be like to stand head and shoulders above everyone else - and to keep growing? Unable to interact with a fragile world that isn't built to withstand your size? To live in a house that doesn't fit you anymore - with a wife who doesn't either? Craig Pressgang's life is well documented in his official CIA biography, "Giant Man: Pillar of America," but the heroic picture it paints is only half the story. The continuous growth caused by Craig's strange medical condition brings a variety of problems as he becomes more isolated and unknowable. Told in three eras by three women with unique relationships with Craig, 3 Story follows his sad life from his birth to the present. Harvey Award winner Matt Kindt (Super Spy, Pistolwhip) brings his innovative design and storytelling sensibility to this poignant look at what it really means to be different, alienated from the rest of the world.

From Publishers Weekly 3 Story is a modern fable, exploring the life of the giant man, Craig Pressgang, through the experiences of three women his mother, wife and daughter. The promotional material claims that Pressgang's life is well documented in his official CIA biography, Giant Man: Pillar of America, and the opening pages present his early life in such a straightforward manner that it is easy to believe it is a real story. As Pressgang reaches extraordinary heights, however, the story takes off into the realms of fantasy. Born during WWII, Pressgang's life serves as metaphor for the American mood over the past 60 years, from the flush optimism of the 1950s to the confusion about the country's place in the world as the 21st century dawns. Throughout, the tale retains an emotional honesty, as Kindt meditates on the nature of love and belonging, the changes one makes in a relationship and the exploitation of anyone identified as different. Kindt's washed-out, watercolor palate helps establish the lugubrious tone; his lovely, deceptively simple style reveals the characters' pain and occasional moments of joy. The special enhanced die-cut cover is an appropriately elegant detail for this moving graphic novel. (Oct.) Copyright Reed Business Information, a division of Reed Elsevier Inc. All rights reserved.
