You can't go wrong with a 5 minute story about superheroes. A lot of children's stories are either very weird, poorly drawn, or just ridiculous, at least these have some decent decent writing and illustrations that my son and I can relate to. It's pretty awesome as a Dad to watch your son discover his favorite super hero. I'd recommend them for any parent who is tired or reading the same old children's books I highly recommend giving these a shot...at least it's something different.4 of 4 people found the following review helpful. Very Nice Gift for Small ChildrenBy Trip Affleckmuch nicer than i expected. i thought these were

small 'Little Golden' style story books, but they are full sized books [8.5 inches by 11 inches], with a soft padded binding. they are also much longer than i expected. each book has nearly 200 pages, with about 12 stories in each. very nice.6 of 6 people found the following review helpful. Great for young super hero fans!!By HothfreezeThese stories make reading fun for the kids and they enjoy looking at the artwork. Good mix of hero stories and no duplicates from the 5 minute Marvel book we already own.

Earth's Mightiest Heroes are quite busy saving the day from battling crooks and robbers to evil alien invaders and super villains! Each of these twelve stories is the perfect length for reading aloud in about five minutes, making great quick reads. This treasury stars old favorites (such as Captain America and Iron Man) as well as new Avengers (Falcon and Vision). With a padded cover, and action-packed full-page and spot illustrations, Super Heroes's adventures are the way to go before bedtime, on the go, or any time of day!
