**Yoshitoki Oima : A Silent Voice 6** before purchasing it in order to gage whether or not it would be worth my time, and all praised A Silent Voice 6:

4 of 4 people found the following review helpful. An Amazing Climax that Gears Towards the End,By Manga KidFirstly, for anyone that cares, the book was in perfect condition, so you don't have to worry about damage.In this volume, for lack of a better expression, our main character is "out of it". So instead, master storyteller Oima takes to using the other characters and telling the story from their own perspective. It gives that extra piece of understanding to this dramatic and heart-felt story. Not much really happens in this volume, instead a lot of character building happens

and it's actually my favorite volume so far. Art is still superb. If you've been following A Silent Voice so far, don't stop now -- it only gets better. If you want to know if this series is worth your time, absolutely. Go pick up the first volume right now. (Next volume is the last, so sad! Also, get hyped for the KyoAni adaptation this fall!) 0 of 0 people found the following review helpful. So good. By Jude~4.5/5 I am so completely and utterly impressed with this volume. It was gorgeous. Depressing and horrible and intense. And gorgeous. Shoya tries saving Shoko, and only ends up hurting himself. And this means that the other characters get a little more focus in this volume. We get a chapter for each classmate, and some are quite insightful. I don't particularly care for most of their inner voices anymore, but it was helpful to read. Shoko's chapters were particularly hard to read, because it's hard to see her struggling. I so badly want to see her happy. I also like Yuzuru a lot, too, because I like her as a character and a friend to Shoko. This volume hurt to read. It was painful. But it was also so needed and worthwhile and so well done. There are some very bad parts, and some very thoughtful ones. This was needed. I need the next volume immediately. I need to see how this series ends oh my god. [More of my reviews are available on my blog, Geeky Reading, to which there's a link on my profile.] 4 of 4 people found the following review helpful. Shock and awe. By TA manga series worth reading over and over. Soon after what happened in the fifth volume, many of the characters start to self-reflect about their own choices that started the whole chain of events that led up to this point. A very deep in thought manga that makes you question the choices you've made in the foolishness and arrogance of youth.

**A SILENT PRAYER** Time stands still for both Shoya and Shoko. Triggered by past traumas, Shoya coldly attacked his friends and burnt the bridges he first set out to rebuild. Shoko feels a deep responsibility for this disaster and attempts to pay for it by taking her own life. Meanwhile, each of their friends finally show their true colors. After everything has fallen apart, how will they mend their hearts and put the pieces back together?
