He is hero in his own right and star agent of the BPRD that has little to do with his ability to breathe under water. Though when that is a mission requirement he of course is the leading candidate. This collection of short stories shows Abe standing on his own

without Hellboy and gives us some back story to other menaces and characters in the BPRD world. It might just be that I am a completist but I love having a chance to see characters and especially this one in stories that inform the main narrative of the Hellboy/BPRD universe.0 of 0 people found the following review helpful. Four StarsBy ClaudioIf not for the whole book, only The Haunted Boy story is worth reading.0 of 0 people found the following review helpful. Abe gets his hands dirty in these early adventures! Paranormal crime scenes wreak havoc on Abe Sapien as he investigates a recluse demonologist's evil house, a haunted lake, and a sunken Soviet submarine filled with zombies! "If you are a fan of horror and suspense in the vein of H. P. Lovecraft like I am, then you'll thoroughly enjoy this miniseries."Comic Book Movie
