It's a powerful combination of Alex Ross and the worlds most powerful heroes in a story that challenges them physically, mentally and emotionally.1 of 1 people found the following review helpful. The big book of justice.By Juan VargasI began reading comics about a year ago

and decided that this type of collected format was best suited for both my reading style (which falls more in line with novel length books rather than the short story format a regular comic strip provides). Wanting to get some super hero stuff I decided that the JLA was probably a safe bet and this ark sounded both interesting and fun. I was right on all accounts. Once I began reading this, I couldn't stop. The story is really fun (if you like super hero stuff), the art is awe inspiring and the plot felt rewarding. Those first few pages set the tone for an awesome super hero ride. The Book itself was... waaaaay bigger than I expected, check the size detail before you purchase!, so it doesn't happen to you too. But it's a beautiful, elegant book. The large printing really helps to showcase the awesome art style and the slip case helps with the book's placement. As I said, take mind of the size and weight of this because it's a big heavy print. I recommend this title to anyone interested in getting to know the DC universe, which can be a little daring to get in to, because it gives a good overall book of all the major heroes and villains of the universe as well as some insight on some of the lesser known characters. The story spotlights the bad guys quite a bit but every major name has its moment to shine. If you are new to super hero comics this is a good place to begin. 0 of 0 people found the following review helpful. Book arrived horribly damaged and I had to send it back. They are the Worlds Greatest Super-Heroes. But the members of the fabled Justice League of America are about to learn they aren't the only ones who can band together toward a common goal. The deadliest criminal masterminds of our time appear to be acting in concert with a surprising plan that seeks to achieve more good than the JLA ever could! But it's just the latest attempt at world domination and our heroes strive to expose the truth, to fight for JUSTICE! DC's pantheon of heroes is reimagined by fan-favorite painter Alex Ross (KINGDOM COME, Marvels) and writer Jim Krueger (Earth X, Universe X), with pencil art by Doug Braithwaite (Paradise X) painted by Ross. This ultimate slipcased Absolute edition contains all twelve issues of the best-selling maxiseries, plus expansive character bios, developmental sketches, pencil art, bonus covers, DC Direct gallery, and much more!
