The main story was a lot of fun and the side stories are adorable. Some of them are major eye candy too. I also have an unreasonable amount of love for watching Marce and PB change hair styles and outfits

over and over, haha. I wish there had been more LSP though, everything with her was golden. My only complaint is that not all the covers in the cover gallery are at full size. Some of them look like they are really detailed and lovely, but at quarter size you cannot really make everything out. 0 of 0 people found the following review helpful. Meredith Gran has a great handle on these characters. By Drown Hollum Meredith Gran has a great handle on these characters, and the story of rock n roll and friendship rolls out adorably with cute art and clever pop-culture references. It kind of twists the world of Ooo a little beyond the established parameters, so if you want to drive yourself crazy over whether or not we can consider this canon, it'll happen. That's really the only problem. It's light, written for kids, hip and breezy and it's nice to see Marceline and PB in the spotlight. 0 of 0 people found the following review helpful. This comic is a great story that stars Marceline the Vampire Queen. By Adekola Aladenika This comic is a great story that stars Marceline the Vampire Queen, her band, and Princess Bubblegum.
