RICARDO DELGADO'S  
AGE OF  
**REPTILES**  
ANCIENT EGYPTIANS

"There's a subtle elegance to Delgado's tale of battling beasts that demands you spend a long time poring over its every nook."  
—Newsarama

**Ricardo Delgado : Age of Reptiles: Ancient Egyptians** before purchasing it in order to gage whether or not it would be worth my time, and all praised Age of Reptiles: Ancient Egyptians:

2 of 2 people found the following review helpful. I cannot even begin to describe how much I enjoyed reading Ancient Egyptians (and kicking myself that I did ...By LyssaI cannot even begin to describe how much I enjoyed reading Ancient Egyptians (and kicking myself that I did not find it sooner). The art was amazing, VERY detailed, and I found myself spending minutes at a time observing the smaller things on every page. The Spinosaurus is my favorite

dinosaur by far, and the way he is portrayed in a way that you really feel like you know him, his thoughts and his character in every panel is impressive in itself. If I could give this a billion stars, I would. I wish I could write Delgado and beg him to make some kind of sequel. I read it a few times and I'm still hungry for more!!!0 of 0 people found the following review helpful. A truly inspired trip back in time. By JP Fish Another masterwork by Mr Delgado! His vision of the prehistoric past is both inspired and inspirational. The scope of this imagination goes way beyond anything we have ever seen on the motion picture screen. Sigh, if only,,,,,, But then, that is the joy of immersing one's self in a book like this. It is a unique and brilliant vision of Earth's truly lost world. If you haven't got the rest of the set, get them while you can! Let's hope he does a dozen or so more!0 of 0 people found the following review helpful. Very good. If you like Dinosaurs you'll like this book. By Katie Amazing comic series. There is no dialog because it follows the story of a male Spinosaurus as he travels through ancient lands. The art is visually stunning and the story is conveyed easily through the art. I purchased this as a keepsake to share with friends and family who enjoy dinosaurs. I recommend this author of any dino enthusiasts.

One of the most beloved and respected comic book series returns as Ricardo Delgado's Age of Reptiles: Ancient Egyptians series marks a bold, new direction in wordless storytelling. The steaming swamps of Cretaceous Africa teem with prehistoric life and primordial danger in a tale filled with villains, victims, and one of the most dangerous and unpredictable protagonists ever created. Watch the lone, lonely anti-hero Spinosaurus Aegypticus as he faces a swamp full of dangerous, double-crossing dinosaurs in a plot-twisting parable that will remind you of the classic spaghetti western and the noble samurai tales of yore.

About the Author Ricardo Delgado is a film and comic book artist who has worked on such films as The Incredibles, Men in Black and Apollo 13. He is the creator of the Age of Reptiles comic book series, as well as one of the Production Designers of Disney's Atlantis- The Lost Empire. Delgado is of Costa Rican descent and lives in Los Angeles, California. He has produced a third Age of Reptiles volume, titled "The Journey", for Dark Horse Comics, published in 2010, as well as two novels, Sam Specter and the Book of Spells, a children's genre story, and Warhead, a science fiction crime story. In early 2000 he published the four issue sci-fi series "Hieroglyph". The author lives in Sylmar, CA..
