**Ricardo Delgado : Age of Reptiles Omnibus, Vol. 1** before purchasing it in order to gage whether or not it would be worth my time, and all praised Age of Reptiles Omnibus, Vol. 1:

By JP Fish Of course they are "one-dimensional" characters. They are reptiles! This is a fabulous illustrated narrative. Calling it a comic book is obscene. Any one of any age can go back and enjoy this timeless set of stories the same way they would enjoy another installment of Walking With Dinosaurs. It is a truly

inspired work. Brilliant! A+++++++!!0 of 0 people found the following review helpful. Must buy if you're into dinosaurs. A visual treat.By Demid TishinFantastic collection of visual novels by Delgado, my son (almost 5 years) absolutely loves it. Great example of conveying the message with no words at all. If you're into dinosaurs at all, this is a must.0 of 0 people found the following review helpful. An Epic Story With No WordsBy ShariI bought this book for my 12 year old son who is a BIG dinosaur fan. He loved the realistic action in a comic style approach. Even with no words it tells the story of dinosaurs, good and bad. This is a book that even I, as an adult, enjoyed. Looking forward to getting Volume 2.

Forget the Silver Age, and bag the Golden Age - this is the Age of Reptiles! Ricardo Delgado, winner of the Eisner Award for Talent Deserving of Wider Recognition, and a prolific development and storyboard artist (Men in Black, The Incredibles, WALL-E, X-Men Origins: Wolverine, and The Matrix series) has crafted epic tales about the most unlikely cast of characters: dinosaurs! This volume collects long-out-of-print Age of Reptiles miniseries Age of Reptiles and Age of Reptiles: The Hunt, the never-before-collected third series, Age of Reptiles: The Journey, and a wide assortment of bonus material, including supplementary text pieces, a cover-art gallery, and sketchbook material.
