I love all of the side stories, as well as the main stories, but I did really like this series a lot. Though the Alice x Blood ship isn't my top favorite, this story really made me realize the potential and the soft side of Blood. I can't wait to read more!The manga had a great story that delved more into Blood, who he is, his past, and the softness that he hides from others, since he's the mafia boss. I'm trying to write this without

giving away spoilers, which is really difficult, so all I can say is the story is amazing and well worth the buy. I personally like owning my books, since I like to re-read them a LOT, especially my favorites, and I already know that I'll be re-reading these a lot. This series also got me really interested in Joker and his story. The book itself was in perfect condition, there was nothing wrong with the cover or the pages inside. I really love this particular artist (Mamenosuke) and I'm really glad they are the ones who illustrated Blood's story. I really like the other artist(s) as well, but this particular art style is one of my favorites. Sometimes I'll go into book stores and see books that have some dents and dings around the edges of the cover from where other customers haven't handled the books very well, but I didn't have that problem here. The manga was in absolutely perfect condition. Overall this was a great purchase and I'll definitely be going back to for future manga purchases!

By Crystal_Dark Contains Chapters 8 - 11: This volume was another great addition to this series and provided several opportunities to learn a little bit more about Joker and his realm. This volume also has some great scenes at the Hatters Mansion as well as at Clover Tower the Amusement Park. This volume also has a cliff hanger at the end so I am really looking forward to reading the next volume.

Alice's romantic tribulations continue in this ongoing series by the New York Times bestselling author of Alice in the Country of Hearts! April season stretches on in Wonderland, giving Alice a chance to enjoy Nightmare's winter festival. But the seasons are shifting, and Joker, the gatekeeper for Alice's travels, guards more than the domains of Wonderland. A secret about Elliot's past comes to light, and Alice realizes that something sinister is lurking in the dark.

It may be impossible to beat Lewis Carroll at his own game, but as Alice in the Country of Hearts shows, there are still ways to succeed.
