I LOVE ALIEN LEGION!!!By Isaac A. LawAWESOME SERIES!!! I love the aliens, spaceships, planets, EVERYTHING. I want to see a movie or TV show based on this.2 of 4 people found the following review helpful.

Must Have for fans By T. D. Burns Times change, and high tech computer enhanced comic art abounds. This story however, was just as good as the first time I read it in high school. My only complaint is the size of the book. I don't know what the publisher is thinking. I would pay what they are asking for a HC full sized novel, but definitely not for this reduced size and quality format. It deserves a better treatment.

Footsloggers and soldiers of fortune, priests, poets, killers, and cads they fight for a future Galarchy, for cash, for a cause, for the thrill of adventure. Culled from the forgotten and unwanted of three galaxies, they are trained to be the most elite, and expendable, of fighting forces. Sometimes peacekeepers, sometimes shock troops, the Legion is sent into the Galarchy's most desperate internal and external conflicts. Legionnaires live rough and they die hard, tough as tungsten and loyal to the dirty end. Alien Legion creator Carl Potts on the series: "The original concept was the 'Foreign Legion in space,' and all the legionnaires were human. The Alien Legion universe is a giant extrapolation of the American democratic melting-pot society, where different races and cultures work together for the common good while dealing with the pluses and problems that the nation's diversity creates."
