But the story makes me want more. 0 of 0 people found the following review helpful. Just OK By Spidey I've had about enough of mutated creatures at this point. Mutated android vs. mutated predator vs. mutated human. No one wins. Olivetti's art is hit and miss with me. Some

panels look great, some look like computer artwork created on Windows '95. 1 of 2 people found the following review helpful. Five Stars
