My first graphic arts book about the Aliens looked great on my KindleBy Modupe HendricksThis is the first graphic arts book about the Aliens that I have ever read. I normally read the Alien novels. The artwork was really great and reading it on my Kindle Fire was even better. Im not happy that this was supposed to be a 160 page Kindle book, its more like 31 pages. If youre interested in the Aliens series of comic

books or novels, you will enjoy this book.0 of 0 people found the following review helpful. Just what I needed.By GlobemikeTwo words: Tristan Jones. The kind of artwork I always want in an Alien comic but pretty much never get. Story is fun too- captures the feel of Alien and A:Isolation, while nodding to the other films. I LOVE anything that can portray the world of the first film, so this was a treat. Keep commissioning that artist, Dark Horse!0 of 0 people found the following review helpful.
