Guy Delisle : Aline and the Others before purchasing it in order to gage whether or not it would be worth my time, and all praised Aline and the Others:

3 of 4 people found the following review helpful. Funny and amusing in everyway. By Jack Jack Guy Delisle is a master of "silent" comics. Some of the strips in here are simply laugh out loud funny (which I normally don't do at written material). It has a cute little drawing style and the characters are very relate-able. The topics might be slightly racey for a child, so it is certainly geared towards and young adults and adults. I love the tooth of the paper and the binding as well. The soft color is just enough to fulfill the character. Sound cheesy and overkill to describe the book this way? It is... It is just as good as "Albert and the Others."
