I've read every issue of this series and most of this particular collection was confusing and seemed to come out of nowhere. The artwork was horrible to ok. Dont waste your money.1 of 1 people found the following review helpful. Another bad collectionBy NemoIf your a trade paperback reader and you want to read Black Vortex, you will have to actually buy Black Vortex. Why marvel thought it was a good idea to collect the

black vortex issues twice, I don't know. The books themselves were good and if they took out the black vortex issues and dropped the price I would have given a higher rating. 0 of 0 people found the following review helpful. Disappointing ending to a fantastic run. By Bad Movie Buff An incomplete story, cut short due to the re-org of the X-books that follows.
