This spins off from a Secret Wars universe where Peter and Mary Jane stayed married and they end up with a precocious daughter named Annie who starts developing Spider powers.Despite this all technically being one storyline, actually I'd suggest the 5th part is a 1-part story. Issues 1-4 set up our premise: Annie has developing spider powers and thanks to a device seized from the Regent, Mary Jane can tap into Peter's spider-powers. This leads to a battle with the Moleman. The story isn't neatly chronological, but reading it in a trade helps with that as we see the events from each character's perspective. Also Issue 1 has some very fun back up stories featuring amusing tales of Annie interacting with her mom and Dad. Overall, the first story is strong, but not perfect. The family really starts to explore how this will work as well as beginning to muddle through what role a 9 year old girl would have in this.Issue 5 them breaking up a bank robbery across from a family fun center based on Chuck E Cheese. This one is fun but light and a tad pointless, although there's hints of the plotline ahead.Overall, this book is quite enjoyable. It's a great concept and the characters are likable enough. While the story's light-hearted, it doesn't shy away from the serious challenges this presents particularly when it comes to a young child fighting crime. The back up stories are fun and the emergence of Norman Osborne's prepubescent grandson as a villain is hilarious yet intriguing. Overall, this is just a fun comic for all ages. Highly recommended.0 of 0 people found the following review helpful. Best Spidey-related title/arc since Spider-GwenBy G. CannaUnfortunately, this is a one-off series that won't have any effect on the main Spider-Man continuity, which is a shame, because it's easily the best Spider-related thing this side of Spider-Gwen. Not a challenging series by any stretch of the imagination, "Renew Your Vows" isn't dark, and there's no Grand Message to impart.. The series is a refreshing dose of pure fun, plain and simple. The plots mostly deal with how fruitless it is to try to stop Mary-Jane Watson-Parker -- still married to Pete in this reality, thank God -- and Spidey-spawn Annie from becoming superheroes. Speaking of Annie, she's easily the best part of the series, Spider-Man's answer to RUNAWAYS' Molly Hayes. She thinks being a super hero is the coolest thing ever, but still doesn't understand why Peter and Mary-Jane have zero energy left for Family Fun Night after narrowly winning a battle with Regent, the Big Bad, who is capturing superheroes so he can steal their powers.3 of 3 people found the following review helpful. Spider-Family FunBy Justin S.Very fun book, I love the concept of a family of superheroes. Like Fantastic Four but with a more relatable father figure. I'm hoping the series continues well beyond this book.

The Parker clan web-sling and wall-crawl their way into your hearts! Life is good for husband and wife Peter Parker and Mary Jane: their daughter Annie is their pride and joy, they're both working and (barely) making ends meet, they're keeping the streets of New York City safe from super villains...you know, normal everyday stuff. Oh, did we mention MJ and Annie have super-powers just like Peter? Being Spider-Man just became a family affair! And when the Mole Man attacks NYC, only the sensational Spider-Family can stop him! COLLECTING: AMAZING SPIDER-MAN: RENEW YOUR VOWS 1-6
