totally loved Christos Gage and Rebekah Isaacs, the creative team from the previous season of Angel and Faith. I was rather bummed that they would not be returning for season ten, but I have to say, Victor Gischler and Will Conrad have taken the ball and raised the game to new levels. The tone, characterization and artistic depiction of all of the characters is fantastic. I'm more excited to see what comes next from this title than I ever have been. Top notch work! As a side note; for anyone who enjoys Victor Gischler's writing here, I highly suggest his novel Ink Mage. His writing is like some impossibly perfect mix of Joss Whedon and Quentin Tarantino. 0 of 0 people found the following review helpful. keeping the series going very well By Mz.Oz This is VERY readable and fun, just look at the tentacle demon on the cover... you know you want to read it 1 of 2 people found the following review helpful. Season 10 delivers By Justin Mitchell Buffy Season 9 was a little lackluster, it was good but not as good as season 8. However, Angel Faith season 9 was awesome and the quality is continued into season 10. I only had a few issues with it. I would have like to see Angel Faith working together, but that will come around eventually. My second very minor worry is the fact that they're using Amy again as the villain. I liked Amy on the show and her appearance in season 8 worked. But I'd like to see an original big bad, other than Corky. Anya appeared in Buffy Season 10 as a ghost only visible to Xander. It would be cool if they could work Cordelia, Fred, Wesley, or Doyle into the mix. Doyle would be my number one choice if they considered bringing in the spirit of one of the deceased characters. I was also kinda bummed that Illyria got killed off last season, I liked Illyria. Lorne would be a nice addition, especially since Andy Hallet died, at least they can bring him back to life through the comics. Also, no sign of Connor so far. I hated him on the show, he was moody and annoying, but I could tolerate him in season 9. Though he won't be missed if he's completely left out of season 10.

Angel's work is never done. Last time he averted an apocalypse, part of London turned into a chaotic stew of supernatural forces. Who better to watch over it than Angel himself? Or so he thinks--until he finds himself going down a really wrong road . . . Meanwhile, Faith begins a new chapter in her life--slaying the undead with Buffy, and then going corporate when a juicy offer tempts her . . . Celebrated novelist Victor Gischler joins Joss Whedon's team.
