This is the first chapter in a saga that altered ...By Will MillerThis is the first chapter in a saga that altered the course of the Marvel Cosmic Universe. Since it is out of print, it has become very expensive for a book its size, but I had to have it to complete my collection. The scope of this book is massive is absolutely necessary when trying to learn the modern history of Marvel's cosmic heroes. I wish Marvel would put this book back into circulation, but as it stands, I still think that this book is necessary for any serious Marvel fan.5 of 5 people found the following review helpful. Dust off those galactic heros!By Ken BayntonBeing a person who did most

of my comic reading in the early to mid ninties, I found the revamped personas of Drax, and Nova really refreshing here. I just received my paperback edition of this collection last week, and after a couple reads i can say that i really enjoyed this. I love all things Thanos and Silver Surfer related, so i've got a pretty good grasp on Drax and his past. But here under some pretty extraordinary circumstances his new persona is a little edgier and hes someone you can actually root for. (unlike giant super powered retard of yesteryear). I'm not really sure why they feel the need to stick him with an emo version of Jubilee, but shes not too annoying. I never really liked Nova or Quasar much, but in this collection you see a different side of them. I've only known them as throw away characters from the 10 years ago, but here they are developed characters you can appreciate. The art is top notch for the most part. The Super Skrull and Thanos make appearances and you really get the feeling something big is coming. I can't wait to read volume two of this series and highly recommend it to anyone who loves seeing these old rejects rejuvenated and realized to their full potential.0 of 0 people found the following review helpful. Five StarsBy ron boswellOf you like the more cosmic side of the Marvel universe then you will enjoy this one.

The Annihilation Wave has come! Annihilus, lord of the Negative Zone, has declared war! Hordes of loyal soldiers swarm from the center of the universe, and only a handful of heroes can resist destruction! As the Xandarian Nova Corps meet its doom, only Richard Rider - the man called Nova - survives. Now the sole custodian of the Worldmind, the Zandarian's database of knowledge and experience, can he rediscover himself in time to lead the war effort against the Annihilation Wave? Drax the Destroyer returns from exile on Earth to mentor Nova - but wait until you see his dangerous new persona! Guest-starring Quasar, Ronan the Accuser, the Super-Skrull and Thanos! Collecting Drax the Destroyer #1-4, Annihilation Prologue and Annihilation: Nova #1-4.
