Keith Giffen, Christos Gage, Dan Abnett, Andy Lanning : Annihilation: Conquest Book 1 (Bk. 1) before purchasing it in order to gage whether or not it would be worth my time, and all praised Annihilation: Conquest Book 1 (Bk. 1):

6 of 6 people found the following review helpful. A grand collection of cosmic charactersBy GrantAnnihilation Conquest is, in my opinion, even better than the first Annihilation Saga. Marvel has assembled a grand collection of previously defunct, Bronze Age cosmic characters to battle a new threat of cosmic proportions.In the wake of devastation caused by the "Annihilation Wave", the galaxy is in turmoil and easy prey for another attack. And the evil

techno race known as The Phalanx are more than happy to oblige. On one front is Moondragon and Phyla-Vell, daughter of Captain Mar-Vell and the new Quasar. Also entering the fray are some of Marvel's classic cosmic characters assembled by the Kree to stave off the Phalanx invasion. This eclectic group of Bronze Age cosmic veterans includes Starlord, Mantis, Rocket Raccoon, Captain Universe, the Space Knights and Groot, the giant talking tree from Planet X. Also turning up after a long absence is Adam Warlock. Together they take on the Phalanx and those the Phalanx now control, including an army of near indestructible "Sentries" and The Super Adaptoid. The "Starlord" segment by Keith Giffen is one of the coolest stories I have read in some thirty years of reading comics. Regardless of how familiar one is with the characters is irrelevant. This is a very entertaining read. However, if you, like me have been reading comics since the early 70s, you'll be very happy to see these characters again and the story will be even more rewarding. Forget Civil War, forget World War Hulk, forget Secret Invasion and forget the death of Captain America. Marvel's cosmic epics are where the real action is. A lot of fun. Highly recommended. 0 of 0 people found the following review helpful. Beginning of the Guardians of the Galaxy By Sharp family If you are a fan of the Guardians of the Galaxy then this is a must have book. It shows how they began. Thrown together and facing insurmountable odds. If you are not a fan it is still highly entertaining as we see the pieces come together for an even bigger event in book 2.1 of 1 people found the following review helpful. Precursor to Guardians of The Galaxy By Murphy Allen This is the series that movie is based upon and has the same wry humor and great story line as the original Guardians Series. A great precursor to the initial Guardian run and a must read if you've seen the movie.

The next sci-fi epic blasts off here! In the grim aftermath of the Annihilation War, a devastated universe struggles to rebuild. Gripped by fear and paranoia, civilizations have collapsed and entire worlds are now smoking ruins. What is next for the battle weary heroes known as Nova, Peter Quill, and Quasar? What are Ronan's plans for the once-mighty Kree Empire? Which cosmic characters of the past are about to return? Who is the new hero approaching on the horizon? And what is the new threat that no one suspects? Collects Annihilation: Conquest Prologue, Annihilation: Conquest - Quasar #1-4, Annihilation: Conquest - Starlord #1-4, and Annihilation Saga.
