Chris "Doc" Wyatt : Ant-Man: Zombie Repellent (A Mighty Marvel Chapter Book) before purchasing it in order to gage whether or not it would be worth my time, and all praised Ant-Man: Zombie Repellent (A Mighty Marvel Chapter Book):

2 of 2 people found the following review helpful. I usually have to make him sit down and tell him that he has to read at least 30 pages of some book and it's like pulling teethBy CatruggzMy 8 year old son loves this book. He is actually reading it on his own volition! I usually have to make him sit down and tell him that he has to read at least 30 pages of some book and it's like pulling teeth. This morning he came and told me that he is already on page 45 of this book, and

I didn't even tell him to read it. I recommend it for 2nd and 3rd grade boys. 2 of 2 people found the following review helpful. I got this for my 5yo super hero. He loved listening to it. By SLSCHLEGELI got this for my 5yo super hero. He loved listening to it, and I actually enjoyed the story as well. Also like that it's a book he'll still go to when he can read it himself. I bought the whole series. 1 of 1 people found the following review helpful. Nice, but..... By Ann B Nice book but a little tattered to give as a gift. It looks used after rough handling I guess. Not worth the \$5.99, could have purchased a used one for less.

Scott Lang, AKA Ant-Man, might be the smallest Super Hero, but he has the biggest heart. At times, though, he doubts how "super" his super power really is when compared to Thor's mighty hammer, Hulk's incredible strength, and Iron Man's fancy, high-tech equipment. Although Scott is not impressed with his talents, he eventually learns to value his skills rather than take them for granted, because no matter how big or small his help is, his teammates always appreciate when Ant-Man gets the job done.
