Keeps getting better with every issueBy Lewis WoolstonI have been a fan of this series since I randomly bought the second volume in a comic book store because the cover looked interesting. Since then I've gone back to the first volume and gotten the thread of the story better. Now this third book has come out and I love it! This series is improving with every volume.This volume continues on from Aphrodite IX

Rebirth so read that book first to get the gist of what's happening. The art is amazing. The very first Aphrodite IX was only so-so on the art. Very much eye candy to appeal to teenage boys whereas this is a lot more sophisticated. There are some big SF concepts in the story including transhumanism and extinction level events on Earth. I would easily rate this as the best comic I have read in years. Highly recommended. 0 of 0 people found the following review helpful. Pretty good story but the ending is contrived. By skissiks Continuation of volume 1 pretty good story about the ending is rather contrived. 0 of 0 people found the following review helpful. Five Stars. By Philip Cuffel just love the artwork.. and the great fantasy story.

Determined to never be controlled by outside forces again, Aphrodite IX seeks revenge against those who manipulated her. Collects APHRODITE IX #6-11 and APHRODITE IX/CYBER FORCE #1
