Deanna is a human warrior soldier who is a hottie female. Briareos is her cybernetic boyfriend who has a robotic face. Together they make a fantastic combat team! They also stop Gaia the computer system from destroying the Olympus paradise!0 of 0 people found the following review helpful. Great series for the collection.By B2Masamune Shirow has inspired some of the most groundbreaking anime ever, but his original works offer quite a contrast in their healthy dose of humor. The events in this volume were brought to life in the 2005

CG film, a stunning and dark character driven feature. Shirow's art style is detailed and chaotically unhinged at the same time, I can't help but enjoy it and think you would too. 0 of 0 people found the following review helpful. Five Stars

Great story !

You can't have a perfect society without perfect people, and the only perfect people are the ones you can manufacture. The governing body of Olympus, an urban utopia created from the ashes of World War III, is about to bring paradise crashing down around their ears as they seek to regulate the minds and bodies of the human race... or fully replace them with cyborg substitutes. Deunan and Briareos, still new to the city, find themselves in the unlikely position of having to hold together this house of cards. Their strategy? Destroy the old foundation and pray everything stands while new underpinnings are forged!
