**Masamune Shirow : Appleseed: Hypernotes** before purchasing it in order to gage whether or not it would be worth my time, and all praised Appleseed: Hypernotes:

0 of 0 people found the following review helpful. If you gots ta has it, ya just gottstaBy John KeslIf you are a super duper die hard Appleseed fan and must absolutely have every scrap of art and story, ever written, drawn or thought about ever, which is in any way related to Appleseed then you must have this. If on the other hand you aren't then this may not be for you. The contents include an off shoot story line involving Knute and Briareos in some espionage and shooting as per normal. There are sketches of mecha, another short story parodying Ghost in the Shell and some more sketches of guns. An interview with Shirow-san follows and it finishes with some more drawings of guns. So, as I said

if you absolutely must, then do. Otherwise, maybe not so much. 0 of 0 people found the following review helpful.  
Good read  
By MannyNice read and interesting things I did not know about the Appleseed world

By YOURTHEMANNOWDOG  
The rest of the Appleseed saga plays out in this book (as of 2010). Shirow, long ago moved onto Ghost in the Shell, and who knows if he will ever return to the Appleseed series. His latest work is just poster and full color image art, as he has either become disinterested or lost his drive at weaving interesting stories. (Maybe he just puts all the hentai stuff out now for money...) So if you were a big fan of Deunan over Motoko, I highly recommend picking this up to complete your collection. On top of that a lot of great sketches, explanations and concept sketches of things in the Appleseed world. Definitely not worth the 14.95 price tag, but I picked this up new from Hero Comics for a measley 5.50 which made this an excellent buy.

World War III is over, but for nomad soldier Deunan Knute and her cyborg lover, Briareos, the greatest challenge lies ahead. Not in the abandoned cities and DMZs of a post-war battlefield, but on the streets of a new "utopia." Shirow Masamune's visionary Appleseed is widely regarded not only as one of the lynchpin works of graphic fiction, but one of the most influential science-fiction stories in recent memory, culminating in the astonishing 2005 animated adaptation. Appleseed: Hypernotes, never before collected in America, features an over eighty page Appleseed tale, plus reams of detailed information and art of the characters, machines, and weapons of Appleseed.

About the Author  
Masamune Shirow is one of the most storied manga artists of all time. Shirow is known for Ghost in the Shell, Appleseed, Dominion, and many more. Much of Shirow's work has been adapted into television, movies, and video games.
