A single comic almost always fails to squeeze that in 20-30 pages as a mini story. What we have here are a series of MICRO-STORIES. They are just great for micro stories but they are just that, a fraction of a fraction. There is no connectivity between them. I love the show

If you like the show you will really enjoy these graphic novels. would be confusing I think for those that haven't seen it.0 of 0 people found the following review helpful. Great Comic From DCBy Susan FlemingThe only thing I will say is that it needs to be on a big screen when you open it, on a small screen it is difficult to read. But the story and the illustrations of the story are all up to the amazing standard of DC. I loved the book and will read it many times just like I did when I was a kid and bought Arrow comic books. I think I am going to try the hard copy as well. These are just amazing.
