**Greg Capullo : Art Of Greg Capullo** before purchasing it in order to gage whether or not it would be worth my time, and all praised Art Of Greg Capullo:

1 of 1 people found the following review helpful. Total and utter waste of moneyBy ChrisTotal and utter waste of money! One of the biggest disappointments of my entire life. The majority of it is computer-generated art of Sam and Twitch. No really; the vast majority. Out of all the amazing work that Capullo has done, not the least of which were some great Spawn covers with Danny Miki on the inks, they had plenty of amazing artwork to choose from. There is really no excuse for how bad this book was. PLEASE do not condone their efforts by buying this!!!0 of 0 people found the following review helpful. I have loved Greg Capullo's work since I first saw it in ...By JustinI have loved Greg Capullo's work since I first saw it in the pages of Spawn. His style is very distinct and I daresay that there are only a few artists out there who work at his level.That said, I was a bit disappointed that it included so much of his digital modern work. As a comic guy, I truly love the pencils. For that reason, I would suggest anyone look at Batman

Unwrapped: The Court of Owls. That really shows off his amazing pencils. 1 of 1 people found the following review helpful. Great artist, amazing art...By J. Brogden My sentiments about this book pretty much reflect everyone else's. The art in the book is amazing as you'd expect as anyone familiar with the Spawn art will most likely attest to. The wide majority of this book contains Greg's current, less traditional digital painted artwork, which in its own right is great. Greg's style has definitely evolved into a distinctive and bold one. But I would've definitely liked a more comprehensive collection of Greg's earlier, more comic book oriented artwork. But for what its worth the book is about great art and you get it in spades. The section in the back of the book has a variety of sketches and the subject matter is what you'd expect from the Spawn artist, and the breakdown of his digital painting process is a nice addition. Overall this is a visually compelling collection of a great art, albeit far from a full library. A nice addition to anybody's collection that enjoys Spawn comics, great "dark" art, or Greg Capullo.

Ask anyone who knows the medium, and that person will say Greg Capullo is the "comic artist's artist!" This collection features many never before seen pieces and a behind the scenes tutorial. This stunning collection of drawings and paintings finally removes the text and logos from all the covers, and lets you take a good long look at the art itself. A must for any Spawn or comic art fan.
