these could only be read in French and I bought them as an app for my iPad. They were great to look at and I understood about 10% but now that they're in English IT'S AMAZING! These books fill in a lot of gaps and they are defiantly a must have!0 of 0 people found the following review helpful. Nice ArtBy Yarrow10I have bought and read all three in this series, and I have played all the video games.I really enjoyed the artwork and the introduction of new characters. But even with all of that I still find the stories a bit hard to follow.Overall these books are a fun piece of AC lore for any fan of the games!0 of 0 people found the following review helpful.
