Joss Whedon : Astonishing X-Men By Joss Whedon John Cassaday Ultimate Collection - Book 1 before purchasing it in order to gauge whether or not it would be worth my time, and all praised Astonishing X-Men By Joss Whedon John Cassaday Ultimate Collection - Book 1:

0 of 0 people found the following review helpful. The Writer of Buffy Makes X-Men By Eric Juneau Comic books. Is

there anything they can't do? Joss Whedon's applies humor and heart-wrench, the same as any other work, to another group of motley misfits with superpowers and lack of understanding. And it works. It works so well. You don't have to know more than a periphery of X-Men lore, but it helps. There's past history--like where Colossus is and Emma Frost's backstory--that's hard to understand if you only know the MCU. But that's why fan wikis are around. All the Whedon wit and charm is there. It feels like the best Buffy episodes. Every panel of art is beautiful and makes you think, whatever John Cassady was paid, it wasn't enough. At times I felt like I wasn't paying enough attention to the panels so I was sacrireligizing the work. Some of them look like they should be wallpapers. However it does suffer from a common sickness of "too much content" in an image to tell what's going on and too many spreads. The writing is not all it's cracked up to be. I always wonder how much the studio dictates and how much the writer does. I always imagine the studio's saying "you gotta refer to this, this, and this that happened fifty issues ago" and "you gotta bring your characters to this point by issue 25 because that's when we have our big crossover tie-in" and "Wolverine's getting a six-issue run with some new title we're trying to promote so don't write anything with the most popular and interesting character for six months." There are plot threads that cease developing, like a mutant cure, and the Breakworld aliens. Nonetheless, this run is beautiful. It's all beautiful. 0 of 0 people found the following review helpful. Wow! More please By srchlightsoul Beautiful artwork, plenty of humor, fast paced, action-packed, unique and enjoyable storyline, large panels, just the right amount of dialog. Perfect! More please! 3 of 3 people found the following review helpful. Astonishingly Easy to Get Into By Garrett Dunn This was my first introduction to X-Men comics. This collection is very easy to jump into if you have any amount of knowledge of the typical X-men lineup. The story is very well written, the art is awesome, and I look forward to reading the rest of the Astonishing X-Men series.

Dream-team creators Joss Whedon and John Cassaday present an explosive, all-new flagship X-Men series. Cyclops and Emma Frost re-form the X-Men with the express purpose of "astonishing" the world. but when breaking news regarding the mutant gene unexpectedly hits the airwaves, will it derail their new plans before they even get started? As demand for the "mutant cure" reaches near riot levels, the X-Men go head-to-head with the enigmatic Ord, with an unexpected ally tipping the scales! COLLECTING: Astonishing X-Men 1-12
