Romance Aang and the gang are back in this 230-page compilation of mini-comics of their mis-adventures, as they made their way to fight the fire lord. Chronologically in order, the book was separated into 3 chapters: the water, earth and fire kingdoms. The length of the mini-comics ranged from 2 to 6 pages long. Every comic were stand alone reads and showcased quick

adventures that happen "behind the scenes" of the cartoon. Humor, that the show was famous for, was evident within the panels. They were witty with a little bit of irony thrown in. Even if you don't laugh out loud at the gangs' antics, you will definitely smile. The pages are tight and glossy. Paper quality is similar to textbook pages. The colors and lines are sharp, clear and defined. The artwork was similar to the original style from the show but there were a couple of comics were slightly different. For most people, the font was a decent size and comparable to the standard size of comic books. If you have a hard time reading smaller font, it might be an issue. In the back, there are a few pages dedicated to the people, involved with the show, with a quick bio and some sketches (if you have the artbook, it was just a reprint of some of the pages). If you are like me and came into "The Last Airbender" late, and never got a chance to read the comics, now is your chance to get the reprint. Even if you have read them, this is a great way to keep the comics in one place in one slim book. Even if you aren't a fan, this book is entertaining enough to hold its own. It was a fast read but you will definitely go back to your favorites and read it over and over again. Should you get it? Definitely.

By Suzi Hough

Originally published as short comics in magazines or as bonus features packaged with DVDs of the animated series, the stories in *The Lost Adventures* supplement the main story of the cartoon. They are created for people who are already watching the show, and would be a very poor point of entry for someone unfamiliar with the series because readers are expected to already know the characters and basic principles of Bending 101. Most of the short stories are pretty humorous, bordering on silly. One story shows the funny (but disastrous!) effects of a bad head cold on an Airbender, while in another Sokka decides that the best way to get food for their troupe is to sell their services as monster hunters, only to have the plan backfire when the fake monster turns out to be a real threat. These are entertaining, but forgettable. Like the show, however, some of the stories take a more serious turn, and fill in small gaps in the main storyline. A Fire Nation general explains to Aang exactly how his people were able to destroy the Airbenders one hundred years in the past after using the same strategies to trap the Avatar. We learn what convinced Zuko to return to the Fire Nation at the end of the second season, which is hinted at but never explicitly stated in the show. But even if the comics temporarily turn serious, they still return to humor before long. The artists vary in style, but they all do a pretty good job of capturing the look of the animated series. There are a couple of stories that don't look like they were scanned at an appropriate resolution, because the panels are slightly blurred and the linework isn't as crisp as it should be. But the differences are only noticeable when the stories are gathered into a single book like this; I bet that if I was reading these in the original magazines, I might not have noticed that the artist was different each time because the changes in style are pretty subtle. I really liked the book, but then I was a huge fan of the cartoon. Like I said, the book expects you to be familiar with the Avatar world, so your ability to enjoy these stories is directly tied to what you thought of the show.

By Kindle Customer

Beautiful artwork, good storytelling and the huhwarmth and humor you crave from the Avatar: *The Last Airbender* Gang. Not only that, but this collection includes 70-some new pages, Bios of the creators and all the other people it takes to bring Aang and Company to life, on page and most of them also on-screen. A brief preview of art from the creative process that's been assembled in hardcover is also included. I got the kindle version--with this you can use "panel view" a nice feature that makes for easier and more exciting reading. Enjoy this offering, also a springboard for the more casual fan as to what's available out there for all to consume with relish!

For three years, millions of eager fans tuned in to watch new episodes of Nickelodeon's hit animated series *Avatar: The Last Airbender*. Ever since, fans have been hungry for more and now their wait is finally over! This volume collects the long-out-of-print, fan-favorite comics previously published in *Nickelodeon Magazine* and with the *Airbender* DVDs, plus over seventy brand-new comics pages. That's twenty-six stories set in *Airbender* continuity, by a host of top-notch talent, many of whom worked on the original animated series! * A must-have for any *Airbender* fan! * Twenty-six in-continuity stories, plus bonus content! * The latest release in an ongoing partnership between Nickelodeon and Dark Horse, to bring you the very best in *Airbender* books!
