the following review helpful. Five StarsBy Joseph Martin MunozBook was in good condition1 of 3 people found the following review helpful. Cool marvel universe meets hunger games storyBy CustomerA battle royale or hunger games for the marvel universe with old time villain Arcade as an ideal mastermind. I thought the kid heroes fell into separate alliances a bit too easy but otherwise its a very interesting variation of the concept with a lot of already built in characters that we have an interest in (if you followed the great Avengers Academy or Runaways series). Some of the other characters I'd only heard of vaguely but Hopeless does a good job of filling you in on them. I don't know how long this concept can hold up but I will definitely check out the next volume.

Trapped on an isolated island, 16 superhuman teens (including cult favorites like members of the Runaways, the Avengers Academy and Darkhawk) are given a chilling ultimatum by their demented captor: Fight or die...only one will walk out alive! Thus begins a primal battle that will test the skills, stamina and morals of each combatant. Welcome to Murder World, where secrets are plenty, alliances are fleeting, and the key to victory might be rewriting the rules of the game. Who will survive? As Cammi and Hazmat battle the mysterious Deathloket, X-23 and Juston Seyfert's Sentinel join the fray...but who is the killer stalking the heroes in their sleep? Who are the students of the Braddock Aacdemy? And why does Darkhawk equal death? We dare you to tune in to your new favorite comic...NOW! COLLECTING: Avengers Arena 1-6
