Marvel's "Epic Collections" are a wonder for collector's By Evetstx The Epic Collections from Marvel are quickly becoming my favorite way of collecting all the classic Marvel titles - I hope they continue to especially print the Avengers (my favorite) The Marvel Masterworks series have gotten to be ridiculously expensive (especially in hardcover format) that its made it necessary to explore other options for

collecting sake - when I found this book - it was a goldmine! In this Epic Collection book you essentially get the best material from the Masterworks series Vol. 6, 7, 8 - which is one of the best if not THE best Avengers product from Roy Thomas and John Buscema as other reviewers have pointed out. The quality is excellent and you basically get the equivalent material of three of the MM books at half the price PLEASE! Marvel - please make more Epic Collections - this reader wants Avengers Vol. 9 - 11 - 12-140 of 0 people found the following review helpful. Perhaps read them one time taking great care not to breath as you turned the pages ...By music man The price of these individually would be too expensive for mere mortals. What would you do with them if you had the original issues anyway? Perhaps read them one time taking great care not to breath as you turned the pages as not to cause a rip or bend thus causing the value to go down and then lock them away in storage? No sir, much better to purchase a soft cover book version with multiple back to back issues of the original stories that you don't need to be concerned too much with but will enable one to read the original story line from those great past masters. Priceless! If you are a comic book lover of the silver age then stop reading my worthless review and make a purchase for your collection. Have fun@! 0 of 0 people found the following review helpful. Five Stars By Jonathan Cook Essential reading and stunning art.

Prepare yourself for one of the most stellar creative periods in Avengers history! Roy Thomas, John Buscema, Gene Colan and Sal Buscema raise Earth's Mightiest Heroes to unheard-of heights with the debut of the Vision, an all-out battle with Ultron, and the introduction of Yellowjacket and an all-new Goliath! Then, Kang the Conqueror drops in from the 41st century, pitting our heroes against the Squadron Sinister in a cosmic chess match! As if one set of adversaries from across time wasn't enough, the Avengers must also battle the Captain America, Sub-Mariner and Human Torch of 1941! Also featuring the Black Panther vs. the Sons of the Serpent, the return of Quicksilver and the Scarlet Witch, and barbarian Arkon the Magnificent! COLLECTING: Vol . 4 ; Avengers (1963) 57-76, Marvel Super - Heroes (1967) 17
