Stan Lee, Larry Lieber, Larry Ivie : Avengers Epic Collection: Earth's Mightiest Heroes before purchasing it in order to gage whether or not it would be worth my time, and all praised Avengers Epic Collection: Earth's Mightiest Heroes:

10 of 10 people found the following review helpful. Early Avengers...and still the very BEST Avengers!By L. GayThese are the original Avengers in all their glory and with really good and solid early stories, that are easy to

follow and the art of the Jack Kirby....how much better can it get? The colors and inking are really good and i think it really does rank as good as the Marvel Masterworks series..but a 1/3rd of the price! This Epic Graphic Novel, takes the place of my original single comic collection that i do not want to defile reading...any more then necessary!1 of 1 people found the following review helpful. I am pleased with the purchaseBy Thomas GeeI purchased this collection because I wanted to re-read stories I first read when I was a kid. Mission accomplished. I am pleased with the purchase.4 of 5 people found the following review helpful. Avengers - in the BeginningBy EvetstxThe beginning of something great doesn't always start great - it goes through its growing pains, which I think, in this readers opinion, is the case with the early stages of the life of one of the greatest superhero teams of all time - I use that word "great" because it best describes what this series would ultimately become - however after reading this volume in its entirety and compare it to the volumes that would follow, I recognize the early material is somewhat rough around the edges - the groundwork being set in place for what would dazzle fans for years to come is there, but personally, the early stories and art here are like...well...I'll compare it to a steam engine - just building speed but not yet at its full power.I know, I will probably be condemned a blasphemer by the Comic-Con faithfuls and be sent into exile to the Negative Zone for my comments but the best of the Avengers would definitely follow this volume - just want to throw in my two cents for my purchase and give an honest review.A must source for readers being introduced to this title (though I can't imagine anyone who hasn't heard of the Avengers by this time) and the definite launch pad for the serious Avengers collector - just be prepared to experience a series in its infancy and the growing pains that come with it - but hail to Lee and Kirby for giving us - "Avengers Assemble!"

Gathering together to face Loki, Marvel's greatest heroes - Iron Man, Thor, Hulk, Ant-Man and the Wasp - formed comics' greatest team: the Avengers! Soon after, they were joined by Captain America and there was no doubt, these were Earth's Mightiest Heroes! But Marvel heroes don't just battle villains, they live, breathe, argue...and even fall out. And in an innovati ve twist, Stan Lee eventually chose to have those original Avengers depart, leaving Captain America to carry on! COLLECTING: AVENGERS (1963) 1-20 (AVENGERS EPIC COLLECTION VOL. 1)
