**Rick Remender : Avengers: Rage of Ultron** before purchasing it in order to gage whether or not it would be worth my time, and all praised Avengers: Rage of Ultron:

The seller shipped right away and I receive the book a day in advanced! :) 1 of 1 people found the following review helpful. Story was OK. Ending was bad.. By Kindle Customer It was okay. I was expecting more. The most jarring part of the book was the ending. It seemed too easy and pat. No consequences or how things were put back to normal. 1 of 1 people found the following review helpful. Rick

Remender and Jerome Opea are one of my favourite creative duos in recent yearsBy Stewart CraigRick Remender and Jerome Opea are one of my favourite creative duos in recent years, and they bring that style to the Avengers Ultron story. It's great

It was another glorious victory for the Mighty Avengers. Good triumphed over evil and Ultron was shot into space, never to be seen again. Or so they thought. Now, years later, the homicidal artificial intelligence - so long devoted to ending life on Earth - has a new world to conquer...one with its own horrific legacy. When Titan, birthplace of Thanos, falls, Planet Ultron rises in its place! Thanos' brother Starfox must seek the aid of his former allies - but the Avengers he finds are radically different from the ones he once knew. Among them is Ultron's creator Giant-Man - and when Hank Pym confronts his now planet-sized "son," the responsibilities of fatherhood have never loomed so large. Rick Remender (Uncanny Avengers) and Jerome Opea (Avengers) unleash the full robotic rage of Ultron on Earth's Mightiest Heroes!
