**Dan Slott, Christos Gage : Avengers: The Initiative - The Complete Collection Vol. 1** before purchasing it in order to gage whether or not it would be worth my time, and all praised Avengers: The Initiative - The Complete Collection Vol. 1:

After the Civil War, the Initiative is the new face of the Marvel Universe! As pro-registration super teams populate the 50 states, Yellowjacket, War Machine, She-Hulk, Justice and Gauntlet train the heroes of tomorrow for the conflicts of today! But as the recruits fall in, who will graduate, who will flunk out - and who will die?! Worry not, because for every soldier that doesn't make it, there are plenty more waiting in line! And when a vacancy arises at the Camp Hammond training ground, the new drill instructor will be a real Taskmaster! But as the Skrulls' Secret Invasion is revealed, the fate of the Initiative, the United States, and Planet Earth hang in the balance! COLLECTING:
