Jonathan Hickman : Avengers: Time Runs Out Vol. 2 before purchasing it in order to gage whether or not it would be worth my time, and all praised Avengers: Time Runs Out Vol. 2:

0 of 0 people found the following review helpful. Thanks for all the fistsBy Ian McKeeIf you like punching, this is the volume for you. Much like the marvel event civil war, time runs out has the people who were heroes give into wanton bloodlust and rage. Captain America in this has completely lost and semblance of rationality and has gone all captain Ahab on the illuminati, who apparently once wiped his memory as shown in as flashback that lacked any real context

or explanation. The illuminati don't come off much better than Steve and his shield avengers do, seemly spending all their time on the run or lamenting on how they could save the multiverse somehow. By all accounts the aim team and the thor plot are the only parts that are advancing the actual story, so im wondering why most of the book is being taken up with the hunt for the illuminati. Those parts are still quite interesting, so i would recommend this book to anyone interested in the context of secret wars. Be warned though the art can succumb to showing off the curves of the female characters, even in serious situations. One such example that comes to mind is captain marvel bent in such a way as to flaunt her shapely ass as well as her chest while she is fighting the hulk. 1 of 1 people found the following review helpful. Would you like some Avengers inside your Avengers with a side of Avengers By Jacob Alvarado The path towards Secret Wars is feeling really good. Each of the groups from the previous volume make big steps forward.- Doom and Molecule Man put their plan into action.- The Cabal continues destroying worlds and capture Iron Man as he attempts to end them by himself.- The Avengers World team helps us learn more about the creations of Ex Nihilo that happened all the way back at the start of Hickman's run.- The universe travelling Avengers team has a big confrontation with the Black Priests with two really great moments.- The big conclusion has multiple Avengers teams and the Illuminati having a pretty awesome battle with many twists and turns. 0 of 0 people found the following review helpful. Great way to go By Paul Hinkle As books go, these four volumes, combined with the great finale of secret wars, are the official swan song of the marvel universe as we all knew it. And this wasnt the typical comic booc retcon, no new 52, no rebirth, no dead avengers in a soccerball that franklin richards made. This is an ending of the multiverse, one doomed earth at a time, and the entirety of all heroes and villians of all earths anywhere, anywhen, any sideways quantum flux, using every plan and every sacrifice, with no hope to save a crumb of the history of what once was... great job, everyone.

How can Earth's Mightiest Heroes possibly halt the absolute end of everything? After two years of carefully crafting his cataclysmic saga, writer Jonathan Hickman jumps ahead eight months to the grand finale - the day of the Final IncurSION! After the revelation of the Illuminati's desperate, world-destroying actions, the Avengers are fragmented. While one group seeks out the Illuminati for a confrontation, another takes the fight to the new Cabal, which is engaged in a bloody mission all their own. COLLECTING: AVENGERS 38-39, NEW AVENGERS 26-28
