Collecting: Avengers (2012) #40-42--- New Avengers (2013) #29-30  
The "Time Runs Out" series is the countdown to 2015's humongous Marvel event: Secret Wars. The multiverse is collapsing in on itself. As alternate earths collide with our own earth the only possible outcome is destruction, unless the alternate earth is destroyed first. A Cabal has been formed to do the unthinkable: commit genocide on a planetary level in order to save our own reality.

In the previous volume of Time Runs Out, Avengers: Time Runs Out Volume 2, the many Avengers team collide in a conflict over the ethics and implications of how to save our world. This volume picks up immediately on the heels of last collection's cliff hanger ending. Plans are set in motion to eliminate the Cabal. The feud between Namor and Black Panther reaches a climax that promises more blood will be spilled between Atlantis and Wakanda in the future. This volume also sees the return of Hank Pym from inter-dimensional space with news of the Beyonders. Readers finally have an explanation for what is causing the multiverse to collapse. In a series of cosmic panels the tragedy of swath of destruction carved through all of reality itself is brought to life. This volume sets the pieces for the endgame into motion. The collapsing multiverse finally catches the attention of the intergalactic inhabitants of our universe, and the Shi'ar mobilize an alien armada for their final solution. Cyclops ominously hints at the X-Men's solution to the multiverse's collapse. And the only people standing in the way of these machinations are, in Rocket Raccoon's words "idiots"--better known as the Avengers. Time Runs Out continues in Avengers: Time Runs Out Volume 4 .0 of 0 people found the following review helpful. This Hickman story is a masterpiece. I wish they'd ...By QPNW This Hickman story is a masterpiece. I wish they'd consolidate the entire Time Runs Out into just large epic volume a la Infinity.0 of 0 people found the following review helpful. A good read By DeBigBriA good read. The art is uneven but even at its weakest it's good - in parts it's brilliant. Nice interplay of characters. Hickman skillfully shows us the fallacies in everyone's perspective while also making it possible to appreciate those perspectives and even see the logic in them. Well, except for Tony Stark who doesn't feature in this volume but was portrayed as near nutso as I've ever seen him since he quit drinking. The pacing seems a bit slow in parts but not overwhelmingly so.

For Earth's Mightiest Heroes and the Illuminati, it has all been building to this. After two years of carefully crafting his cataclysmic saga, writer Jonathan Hickman jumps ahead eight months to the grand finale, the honest-to-goodness immediate future of the Marvel Universe...and the day of the Final Incurion! After the revelation of the Illuminati's desperate, world-destroying actions, the Avengers are fragmented! What has become of Earth's Mightiest Heroes over the past eight months? What will happen when the Avengers, Illuminati and Cabal clash? And have all the battles they've endured, and the sacrifices they've made, prepared either group for the inevitable moment where time runs out for everybody? The third act of the astonishing climax to Jonathan Hickman's legendary run is here! COLLECTING: Avenger s 40-42, New Avengers 29-30
