**Marv Wolfman, George Perez : Batman: A Lonely Place of Dying** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Batman: A Lonely Place of Dying:

1 of 1 people found the following review helpful. Batman and Robin will never die!!!!By A Customer After the death of Jason Todd (Robin II), Batman was no longer the same. He was becoming darker, more violent, and more distant (if

that was even possible!). He was also becoming reckless. It was becoming very clear that Batman needed a partner. He needed someone to keep him grounded. Someone to bring at least a shred of cheer into his dark existence. He needed a friend. He needed Robin. But Robin was dead. However, in this book we learn that Robin cannot die because he is a symbol just like Batman. In Grant Morrison's recent R.I.P storyline, the point was made loud and clear: Batman and Robin will never die. In *A Lonely Place of Dying*, Batman learns just this. With the help of a bright young man named Tim Drake who has been given Dick Grayson's blessing. This is a fantastic story. I don't want to ruin it for anyone, but anyone who has picked up a Batman comic in the last two decades knows that Tim Drake became the third Robin and this arc tells the incredible tale of how he went from a nosy boy doing his own brand of detective work, to Batman's right hand man. Also notable in this story is a great tale of 2-Face vs Batman that is not to be missed. I highly recommend this one to all Batman fans and all fans of Robin. Tim Drake is great as Robin and the fans loved him. Time will tell if the fans will embrace Damian Wayne (the current Robin) the same way. 0 of 0 people found the following review helpful. Long Live Tim Drake! By Walid Suliman Batman: A Lonely Place of Dying collects Tim Drake's five-issue journey to becoming the new (and best) Robin. Following the death of Jason Todd, Batman became reckless, taking unnecessary risks, not using his head, essentially having a death wish. An observant Tim Drake, who has deduced Batman's true identity, is concerned. He knows Batman needs a Robin. The only option -- reunite Bruce Wayne with his original partner, Dick Grayson. Dick, however, is off on his own journey, having just taken leave from the Teen Titans and he has no desire to put on the yellow and red again. *A Lonely Place of Dying* is a testament to the detective skills that make the Dark Knight's extended family more than mere thuggish vigilantes. Batman, who has forgone using his brain, is nothing more than a meathead in a bat-suit at this point, the Bat-Cave just a dark mausoleum. Dick and Tim, however, use their detective skills to the fullest. It's clear to all that Tim is a natural pick for the next Robin -- clear to all but Tim. The reluctant hero takes his time coming to grips with the thought of being Batman's sidekick. By the end of *A Lonely Place of Dying*, it's hard not to cheer him on. This isn't just a tale of Tim becoming Robin. There is a good story here as well, with an interesting pseudo-psychotic break for Two-Face. The end result is a solid launching point for a new Batman era. Having not read *A Lonely Place of Dying* for some time, I'd been expecting a very tired story, but this is one of the better in-continuity Batman stories of the '90s. Long live Tim Drake! 0 of 0 people found the following review helpful. A reason to like Robin By B This is one of my favorite Batman Stories. This is a story of Batman's relationship with all of his robins (at that time.), Nightwing (his first robin), Jason Todd (who was killed by Joker, Read: *A Death in the Family* for that story.), and the Robin who is making an appearance in this comic called Tim Drake. The comic is great in that it focuses on how Batman is doing emotionally after the loss of Jason Todd and his relationship strain between him and Dick Grayson (Nightwing). It also gives you great reasons as to why Tim Drake should be Robin. He really earns his right to be Robin in this book. I can't say much more without giving away the rest of the plot but IT is a very good read and any Batman or Robin fan can enjoy this. 5/5

Batman: A Lonely Place of Dying. Trade Paperback comic book. (TPB)

About the Author Marv Wolfman is the former Editor-In-Chief of Marvel Comics. He is a longtime comic writer who had long runs on *Tomb of Dracula* for Marvel, which is where *Blade the Vampire Hunter* made his first appearance and *New Teen Titans* for DC Comics. *Blade* was later adapted to film form with Wesley Snipes in the starring role. Wrote the landmark DC Comic series *Crisis on Infinite Earths*. Created the character 'Bullseye' for *Daredevil* comics. Created the current iteration of Robin (Robin III/Tim Drake) for DC comics. The character has remained popular for nearly twenty years and has its own self-titled long-running series
