continues and this is listed as a prequel to the final volume.....A miss-mash of 5 issues strung together without any ending just a continuance. If you want a conclusion get your order in for volume 2, which will most likely lead to a volume 3.....I am sorry but this just isn't MY Batman. Story does little to really interest, and the artwork is ho-hum. It's not high priced for a hard cover; but if you, like me, are sick of this whole Arkham City nonsense, just pass this by. Or you may purchase my copy.....2 of 2 people found the following review helpful. Awesome, but product description is wrong about contents.By B. GundersenGreat book as always with the trade paperbacks connected to the game lore.This collects Issues 1-4 not 1-6 like the description on here states. Usually these books have 5 or 6 issues so I was surprised.I hope Volume 2 contains 5 and up since the description for it says 7-12 which I feel might be wrong.This also comes with a free skin/costume for either PS4 or XBONE which is awesome. My codes worked perfectly.Can't wait for more volumes.0 of 0 people found the following review helpful. The free skin for the game is a good bonus.By Vic De AldayStory's ok. But the art goes from mediocre to outright bland/terrible at times. There are several action poses that are quite awful and awkward looking (best example is when Bruce Wayne kicked a goon from behind while using a payphone). There are times that the art needs to carry the reader going from one page to the next, but here it stalls your momentum in reading further. I found myself putting the book down a few times even though the story is serviceable just because the art is unappealing. The free skin for the game is a good bonus.

THE STORY BEHIND THE SMASH-HIT VIDEOGAME! The Joker is dead. But in Gotham City, evil lives on. Batman has battled his way through the open-air prison known as Arkham City, barely escaping with his life. Now, with his nemesis gone and his outlook changed forever, he's ready to use the resources of his alter ego Bruce Wayne to shut Arkham down and truly transform the city he has sworn to protect. But Batmans enemies, too, are more motivated than ever. Even as the Jokers tricks and traps continue to wreak havoc, the bloody throne of the Clown Prince of Crime is vacant. Villains from the Penguin to Harley Quinn to the terrifying Scarecrow himself are plotting to seize power. Yet an even greater threat lurks in Gothams shadows. A new crimefighter has come to town, wearing high-tech armor and killing criminals wherever he finds them. But his true target is Batman himself, and this Arkham Knight will stop at nothing to take the Dark Knight down. As the Arkham saga rockets to its conclusion, Batmans greatest challenge is about to begin Collects **BATMAN: ARKHAM KNIGHT #1-6**.
