Various : Batman Arkham: Man-Bat before purchasing it in order to gage whether or not it would be worth my time, and all praised Batman Arkham: Man-Bat:

2 of 2 people found the following review helpful. One of the Weakest Batman Arkham Villain Collections So FarBy clairetoldmetochangemyscreennameOne of the weaker Arkham villain collections so far. Man-Bat isn't one of my favorite Batman villains as it is, but when used correctly he can have intriguing stories. The problem with this

collection is that almost all of the included stories and issues are ones that touch upon Man-Bat's origins. While this worked wonders for the Poison Ivy and Two-Face collections (since their origins have changed and altered over the years), Man-Bat's origin story is mostly the same throughout the various issues: Professor Langstrom experiments with a bat gland formula, takes it himself, becomes Man-Bat, runs afoul of Batman, has drama with his wife Francine. There isn't a whole lot of variation to the different takes aside from playing with whether or not Langstrom and his wife had a happy marriage or not. Other than the continually repeating origin stories there isn't much to this collection. There's a funny couple of issues from a Man-Bat solo series where Langstrom tried to play hero for awhile (featuring some hysterical Z-List DC villains I'd forgotten even existed), a good New 52-era one shot that takes place during the Forever Evil story arc, and a beautifully illustrated Batman Black and White issue. Other than that though the issues are mostly too samey. The one longer story arc included here that explores Langstrom losing his mind to the serum and the revelation that his wife has had a Man-Bat baby is pretty well written but the art is atrocious in my opinion. The character models are ugly and too bulky and the action panels are overly messy. 0 of 0 people found the following review helpful. Five Stars By Carmen Nepa Great book! 0 of 0 people found the following review helpful. Contains 3 versions of Man-Bat's origin. By Spidey Who knew Man-Bat had so many solo comics? Unfortunately, the collection tells Man-Bat's origin 3 different times. The stories aren't nearly as good as the art. The Dan Didio J.G. Jones and Frank Tieri Scott Eaton stories are probably the best. Also contains art by the legendary Neil Adams Steve Ditko, along with Alcatena providing top notch pencils. Sadly, Flint Henry draws almost half the book and his art makes everyone look like they are melting.

One of Batman's oldest enemies, Man-Bat is the epitome of Gotham's seedy underbelly, with his shady business deals and deadly mobster crimes. This new anthology collection features some of Penguin's greatest stories throughout the decades as a leading Batman super-villain!
