revolution takes place in the animated universe as opposed to the New 52. This has its pros and cons. For one There is perfect continuity with all past Batman Beyond stories. On the other hand it cannot participate in New 52 events such as Night of the owls. How cool would it have been to see one of the assassins of the court trying to take revenge on Bruce Wayne in the future? The art style has improved over the previous graphic novel Hush Beyond. However the plot is forgettable. There is an exciting moment where with the exception of Superman Batman beats the crap out of everyone in the Justice League following the #1 rule of the DC universe. "Batman always wins." However this fight is utterly pointless. Bruce just has Terry wail on them for a territorial dispute during a serious hostage situation. Still I greatly enjoyed it. 0 of 0 people found the following review helpful. batman beyond awesome By zombie1 Always been a fan of batman beyond the animated series . Volume has a couple small subplots rather than one long story arc- I enjoyed the ride and could hear the old WB tv show theme in my head. I suppose I should break out those DVDs.

The alliance of Terry McGinnis and Bruce Wayne is stronger than ever after their battles in "Hush Beyond". But now a superpowered criminal has gotten in way over his head - and the whole Justice League has come to Neo-Gotham to hunt him down! Also, there is much unrest at Wayne-Power Industries. Who is starting these riots and more importantly, will Batman be able to stop them?

About the Author Adam Beechen has been one of the most sought-after writers of animation and comic books of the last decade. He has written for DC Comics' Batman Beyond, Justice League Unlimited, Teen Titans, Robin, Batgirl, Legends of the Dark Knight, and such animated series as Teen Titans, The Batman, Batman: The Brave and the Bold, X-Men Evolution, and Ben 10. Needless to say, he's thought a lot about superheroes and the worlds they live in. Dustin Nguyen is a New York Times bestselling and Eisner Award-winning American comics creator. Currently, Dustin illustrates Descender, a monthly comic published through Image Comics of which he is also the co-creator, alongside artist/writer Jeff Lemire. He is also working on the next installment of Scholastic's Secret Heroes Society as well as Batman: Li'l Gotham for DC Comics with Derek Fridolfs. His past body of work includes Batman, Superman/Batman, Detective Comics, Batgirl, American Vampire, Justice League Beyond, and many, many more. Darwyn Cooke was an Eisner Award-winning cartoonist and animator. After spending several years as a magazine art director and graphic designer, Cooke switched careers and began working in animation, where he contributed to such shows as Batman: The Animated Series, Superman: The Animated Series, and Men in Black: The Series. DC Comics then approached Cooke to write and illustrate Batman: Ego, which Cooke had pitched unsuccessfully several years earlier. The critical success of the title led to the relaunch of the Catwoman series with writer Ed Brubaker. Cooke then spent several years writing and drawing the ambitious epic The New Frontier. He was also the writer/artist of Before Watchmen: Minutemen and co-writer of Before Watchmen: Silk Spectre.
