scale and depth..2 of 2 people found the following review helpful. but once you get back on track this volume is amazing.By Edward GrimmIt finally ends and you get to see WHODUNIT and I was genuinely surprised. I'd rather have the covers before each issue because they seem to randomly put filler or sidestory issues in the mix and it gets confusing, but once you get back on track this volume is amazing.0 of 0 people found the following review helpful.
