**Greg Pak : Batman/Superman Vol. 1: Cross World (The New 52)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Batman/Superman Vol. 1: Cross World (The New 52):

You're not getting a massively discounted book; you're getting the wrong item.This will NOT give you Volume 1. Rather, it will give you Issue 1. Which is only the first chapter of this book.I

spoke at length with customer service, and they repeatedly insisted there was no problem. Not sure if a language barrier is to blame or if they just didn't care, given how inexpensive the item is. In any case, I wasn't given the impression that problem was going to be fixed any time soon, so I'm leaving this review as a warning to others. If purchasing for your Kindle device, buy it directly from Comixology. 3 of 3 people found the following review helpful.

**EARTH 1 BATMAN/SUPERMAN GO TO EARTH 2 AND MEET UP WITH THE BATMEN AND SUPERMAN** By Raymond L. Walters This is a Prequel before Darkseid arrives and wipes out most of the heroes of EARTH 2. Once I read it was the very first adventure of Batman and Superman of EARTH 1 and they went to EARTH 2 and did not remember it, I was in. I love EARTH 2 and think it is awesome, I wish there would be more EARTH 2 books. Anytime I find out there is an EARTH 2 book coming out I buy it with my 1 click setting on my Kindle. If you haven't read any of the EARTH 2 books you are truly missing out on some great stories. 0 of 0 people found the following review helpful. It was a decent read but the art work was a little weird and the story telling gets a little confusing at times. By Vote4ian I got through it and it wasn't all that bad but I wish I spent my time and money on reading something else. The story certainly gets interesting towards the middle and I enjoyed the Darkseid story in the end but it wasn't all that great. Not a big fan of the artwork at times (a Superman wearing a t shirt?) and the story telling gets confusing. If you are looking for something different, a little more obscure than most but familiar then you should pick this up. It's not a bad read by any means. I was just hoping for something different.

The Dark Knight and the Man of Steel are close friends in the modern day--but the two weren't always such close allies. Discover how two of the World's Finest Super Heroes met for the first time in the New 52, and the mysterious adventure that takes them to a whole new world--the world of Earth 2! The heroes of the main DC Universe meet their Earth 2 counterparts for the first time! Collects Batman/Superman #1-7.
