**Frank Miller : Batman: The Dark Knight Returns 30th Anniversary Edition** before purchasing it in order to gage whether or not it would be worth my time, and all praised Batman: The Dark Knight Returns 30th Anniversary Edition:

If you have, buy this edition there are all sorts of bonus goodies that add great context to the publication of this story back in the mid 1980s. This is certainly one of the best comics ever crafted, and I don't think many would argue with that. 0 of 0 people found the following review helpful. Best comic book of all time. By YourMom The best comic of all time. This anniversary issue is the epitome of this book. Frank Miller writes an amazing dark and gritty story set in a dystopic version of Gotham City which just sucks you in from the start. If you like Batman, especially the Dark Knight, and the dark and twisted side of that movie, I highly recommend this graphic novel. Plus it's super cheap on and the quality is awesome. 0 of 0 people found the following review helpful. Greatest Batman tale of all time By Joseph This is a great 30th anniversary TPB, I kind of wish there was a hardcover version of it but this is still great. The story is still intact of course so expect the great Frank Miller when he was entering his prime

Celebrate 30 years of one of the most influential stories ever told in the comics medium with the anniversary edition of the undisputed graphic novel masterpiece **BATMAN: THE DARK KNIGHT RETURNS**. Writer/artist Frank Miller completely reinvents the legend of Batman in this saga of a near-future Gotham City gone to rot, 10 years after the Dark Knights retirement. Forced to take action, the Dark Knight returns in a blaze of fury, taking on a whole new generation of criminals and matching their level of violence. He is soon joined by a new Robina girl named Carrie Kelley, who proves to be just as invaluable as her predecessors. But can Batman and Robin deal with the threat posed by their deadliest enemies, after years of incarceration have turned them into perfect psychopaths? And more important, can anyone survive the coming fallout from an undeclared war between the superpowers or the clash of what were once the worlds greatest heroes?
