Kevin Smith : Batman: The Widening Gyre before purchasing it in order to gage whether or not it would be worth my time, and all praised Batman: The Widening Gyre:

0 of 0 people found the following review helpful. Kevin Smith writing Batman, pretty neat.By BThis story is written by Kevin Smith, and there isn't anything hiding that fact that it is. If you're not familiar with his work, you might be taken back at his approach to Batman. Watch Clerks, Dogma, or Jay and Silent Bob and you'll learn a thing or two

about how Kevin Smith uses humor. The story is also written with the idea that the story content in Batman: Strange Apparitions, Batman: Dark Detective, Batman: Hush, and Kevin Smith's first Batman graphic novel Batman: Cacophony have happened. You might want to have read these before reading although it isn't a huge deal, the story flows nicely if you didn't but you might want to in order to fully enjoy it as a Batman fan. Kevin wrote this book with a Batman fan like himself in mind, along with his humor both visually and dialogue. There are some images and humor that isn't safe for Children, some might go over their head, but you'd probably notice it right away. Its a pretty great story, I liked it! I only felt that some humor might have taken away from the story, although It's great writing. The also leaves you at a point where there is going to someday be a part-two. Its a be continued end. This was written before the NEW 52 reboot so who knows when its going to happen. I heard a rumor that Kevin might be writing it soon and it could be published later this year. We will see. The product itself (I got the hardcover from) Is pretty thick for a book, beautiful illustrations and color. Nice on the self. Great for any Batman and Kevin Smith fan. Very interesting read. Again not so sure you would want a child reading this, I'd take a look at it first if I were you. 4/5 stars.- B0 of 0 people found the following review helpful. BaphometBy cjackintheboxThe ultimate love letter to batman from batman fans, for batman fans. Part two, the sequel to Cacaphany, explores the history of the bat, and the duality of Bruce Wayne/Batman in a very fresh and exciting way0 of 0 people found the following review helpful. Absolutely loved it. Anyone who is a fan of Kevin ...By CustomerAbsolutely loved it. Anyone who is a fan of Kevin Smith's writing should pick this up. It is different, comical, yet doesn't stray too far away to make it seem unlike Batman. I hope someday he continues this run.

As The Dark Knight stalks the night preying upon Gotham City's criminals, Bruce Wayne spends his days getting reacquainted with former girlfriend Silver St. Cloud, who attempts to teach Bruce about trust. Meanwhile Batman has taken on a mysterious new partner in his fight against crime in Gotham City, but will his attempt at trusting someone cause him to be rewarded...or punished?From the Hardcover edition.

From BooklistAfter training three sidekicks and putting countless criminals in jail (well, putting the same 10 criminals into jail countless times, anyway), it only stands to reason that old Bruce Wayne was due for a midlife crisis. So when he is not busy breaking in a mysterious new crime fighter a laid-back fellow with a rather eerie goatlike appearance named BaphometMr. Wayne takes up with the vivacious, intelligent Silver St. Cloud and actually starts to lighten up. Hollywood writer-director and comics scribe Smith, who has an impressive knowledge of Batman mythology, delivers not only crisp, sharp dialogue but also strong action, three-dimensional characters, and a distinctly R-rated dose of gore and sexuality in a deceptively lighthearted adventure that opens things up for the next installment. Not to be outdone, Flanagan swims upstream in a genre filled with one indistinguishably sleek, streamlined figure after another to provide rough-hewn images and classical figure work that are a throwback to the days of highly distinctive visual styles. As nifty a package as mainstream superhero comics has to offer. --Jesse KarpAbout the AuthorKevin Smith is a producer, writer, director and author, Batman Cocophony is his first experience as a comic-writer. He currently works on Batman Widening the Gyre and Green Arrow Sounds of Violence. Walt Flanagan, american comic-book artist, he worked on Karney and War of the Undead for IDW, and for DC on Batman Cocophony and Batman Widening the Gyre.
