There's some really great stuff in here. Interviews with Mark Hamill, Carrie Fisher, and Harrison Ford from right before the original movie was released. The interview the Ralph McQuarrie is a highlight as well.The piece I found most interesting was the transcript of a discussion between George Lucas and Alan Dean Foster. Foster was the author of Splinter of the Mind's Eye, the first Star Wars story that wasn't an adaptation of the film.At the time of the discussion "A New Hope" had not yet been released, so Lucas was unsure if it would be a success. He was talking with Foster because he saw the book as an easy,

cheap way to continue his story if the movie tanked and he couldn't make a sequel. They discuss things like killing off Leia and also finding a new villain. Lucas was unsure if Vader was a strong enough villain for the series. At that time James Earl Jones had not yet been called in to provide the voice for the character and transform him into the Vader we know today. 0 of 0 people found the following review helpful. goodBy Jonathan K.As described, good read1 of 1 people found the following review helpful. "With the recent loss of Carrie Fisher, it feels all too appropriate that there's a lot of kickass content about the women of Star Wars in this collection. From Hera and Sabine of Rebels to Daisy Ridley and the world of fangirls, it's awesome to see the myth of Star Wars being just for boys dispelled with so much terrific material...As always, the slick presentation and fascinating content made for a great read." - San Francisco Book (5/5 stars) About the Author Titan Magazines has been publishing the official Star Wars Insider magazine worldwide for over 60 issues and has featured celebrity contributors and guest editors over its distinguished run.
