Jim Valentino, Al Milgrom, Tom Defalco, Len Kaminski : Guardians of the Galaxy by Jim Valentino Omnibus (Guardians of the Galaxy Omnibus) before purchasing it in order to gage whether or not it would be worth my time, and all praised Guardians of the Galaxy by Jim Valentino Omnibus (Guardians of the Galaxy Omnibus):

he left Marvel with the others to create Image Comics. I had many issues of this series back in the 90s but missed several and never found them all. So excited to have Valentino's complete run in one beautiful book. I purchased the 3 volumes of GOTG in the Year 3000 TPBs so I now have the original GOTG series in it's entirety!4 of 5 people found the following review helpful. The OG GOTG!By Grammar SlammerIf you're familiar with previous Marvel omnibuses, this is the same format used for those, reliable binding and beautiful glossy pages.I bought this for my girlfriend, who loves the, now world famous, 2008 iteration of the Guardians of the Galaxy, and wanted to see the roots of the team.Don't expect to see Starlord, Rocket Raccoon or Groot anywhere in here though, as the characters in this collection comprise the original team, most recognizably Yondu, who appears in the film adaption played by Michael Rooker.If you love the recent movie and want to learn the legacy of the characters that made it possible, then this is a great look at the stories and team that ultimately led to it in the first place!0 of 0 people found the following review helpful.
