Brian Michael Bendis : Guardians of the Galaxy Vol. 5: Through the Looking Glass before purchasing it in order to gage whether or not it would be worth my time, and all praised Guardians of the Galaxy Vol. 5: Through the Looking Glass:

8 of 9 people found the following review helpful. Marvel sells you the same story 2x to increase their profitsBy Frank L. Greenagel IIFan-boys (and fan-girls) tend to hate it when I give 1, 2 and 3-star reviews of books they love. These

people are a real problem, because they gobble up whatever Marvel (and DC) put out, regardless of the quality. The quality of the stories here are fine, but issues 25-26 are part of the "Black Vortex" storyline that spans 5 or 6 different titles (which is available in another, complete trade). Readers are faced with either (a) only understanding 2 of the 5 issues in this story or (b) redundantly purchasing these issues 2x when buying the Black Vortex trade, which is a win for Marvel but a loss for the consumer. The trade opens up with the Guardians Annual (shout out to the annuals of the 70's and 80's), which is a one-shot tale of a Skrull War follow up. Nick Fury shows up. No more spoilers. It's fine, but nothing special. You could die without reading it. There is some good dialogue and a few jokes that are quite enjoyable. Still, the fact that this is largely part of the Black Vortex story without being complete, is awfully irritating. A note that I'll address more in my Black Vortex review but will touch upon here: (a) it gets annoying to continually see our heroes get excessive powers and then argue over the ethics of using the powers. (b) it is also annoying that the message here is that power always corrupts. It's a tired theme in superhero storylines (c) enough with smashing the liquid container that houses the Supreme Intelligence. I've seen it happen at least 4x in my life now. 0 of 0 people found the following review helpful. Five Stars By Customerwell packaged, quick delivery, no complaints at all, would definitely use again. 0 of 0 people found the following review helpful. Five Stars By Yusuf Kudsi Great ending I think Brian Michael Bendis did a great job with Guardians of the Galaxy

The Guardians of the Galaxy are caught in the pull of the Black Vortex! With the Slaughter Squad hot on their tails, the X-Men and the Guardians have to find somewhere to stash their precious cargo...but will the temptation of the Vortex's unknown power be too much for this band of misfits? Rocket leaps into action! Gamora goes on the offensive! Ronan is deposed! Star-Lord is defiant! This story has it all...but does it seem like the Guardians have forgotten something in all the cosmic craziness? Oh, that's right, Peter got elected President of Spartax! Wait, what?!
COLLECTING: GUARDIANS OF THE GALAXY 24-27, ANNUAL 1
