Great resource. Sometimes the review questions were confusing, but overall a great read.  
0 of 0 people found the following review helpful. Five Stars  
By Myra Simmons  
Great book!

Advanced Medical Billing and Coding: A Reimbursement Approach offers an innovative look at the complete billing, coding and medical claims reimbursement process. Its unique dual perspective considers the roles of the medical billing and coding professional and the health claims examiner. An extensive revision, this edition includes the new

ICD-10 code set, the most current billing forms, and coverage of the most recent healthcare legislations. Four new chapters focus on processing medical claims for Non-Medicare, Medicare and Workers' Compensation. With its balanced perspective, students learn the perspectives of both the medical office and insurance company which prepares them for the complete billing, coding, and reimbursement cycle.
