**Tim Seeley : Hack/Slash Omnibus, Vol. 3** before purchasing it in order to gage whether or not it would be worth my time, and all praised Hack/Slash Omnibus, Vol. 3:

0 of 0 people found the following review helpful. Still enjoyable By ChibiNeko I have to say that there's something about this series that is addicting to the point where I ended up purchasing the first 4 omnibus editions despite feeling lukewarm about the first two when I initially read them. I like the series, but I'll admit that it's a mixed love. For every one thing I've loved about this series, there are at least as many things about it that irk me. First, the stuff I loved. This

volume keeps up the habit of having some pretty interesting artwork that runs the gamut as far as art styles go. There are some I prefer more than others, but for the most part this helps keep the series rather fresh and I like seeing how different people draw the different characters. Especially Vlad. Some draw him looking nearly normal while others play up him up to look more monstrous. I'm not sure which I prefer, to be honest. There are also some decent stories in this volume. Anything that brings back Gertrude, the greatest groupie ever, is a good story arc in my book. I also like that there isn't as much name dropping as there was in the first two volumes. Mentioning specific artists or the roster of the Suicide Girls website might be fun if you're more familiar with those people, but if you're not then they just fall flat because the story assumes that you're already aware of them. Unfortunately there are just as many parts that sort of feel just "meh". There's a return to the Archie parody world, which I was somewhat excited about, only for it to fizzle more than sizzle. We also have trouble in paradise for Cassie and Margaret, which didn't really sit right with me. (slight spoiler) I know that there wouldn't be any running off into the sunset for the two of them, at least not anytime soon, but this just felt like it could have been handled better. This is still fun and I'm enjoying the omnibus editions, but this is still a rocky road for me as far as the series as a whole goes. I'll keep reading, but this still remains one of those series that I'm forever undecided on whether or not I should keep collecting it or let it go. 0 of 0 people found the following review helpful. Five Stars By SatanAmazing! 0 of 0 people found the following review helpful. Five Stars By Mr\_HAHALove this book!!! Entire series is top notch!!!

An utterly defeated Cassie must overcome the death of her father if she's gong to escape a run-in with the police, a host of vengeance-seeking enemies, and a whole bunch of new slashers! Will Vlad be enough back up, or will the slasher hunting duo need to turn to some unlikely allies? Collects issues #18-34 of the Hack/Slash ongoing series as well as the award-winning Entry Wound one-shot.
